INSTRUCTIONS

On How To Use This Directory

At the top of page fourteen, you will find the following name listed:

Dietz Ernest (Mae) 520 Rd 14E, Rt 4 Bzl

Dietz Ernest is the name of the man, (Mae) is the name of his wife, 520 is the house number, Rd 14E is the number of the road on which he lives and Rt 4 Bzl is his mailing address, which is Rural Route 4, Brazil. To find Rd 14E, turn to Key to County Roads on page 8. Under E roads you will find that the map location of Road 14E is G-11. Now turn to Clay County Road Map on opposite page on which you can easily locate Road 14E.

If you should know the house number, road number and rural route of a party you are trying to locate, but do not know his name, turn to the House and Road Number Section on page 55 and proceed as follows:

First find the rural route which is listed alphabetically under town from which rural route delivery is made.

Secondly, find the road number on which party lives. Then follow house numbers, which are listed consecutively, down to the house number you desire. The name of the party you are trying to locate will be found opposite the house number.

**CLAY COUNTY
(INDIANA)
RURAL DIRECTORY
1954
AND
CLASSIFIED BUYERS' GUIDE**

This directory contains names, house address, mailing address and telephone number of persons who live in Clay County and outside the city limits of the City of Brazil.

All county road house numbers indicate the distance from the Court House to the house. The first digit of a three digit house number indicates the number of miles from the Court House. For example: house number 650 indicates approximately six and one-half miles from the Court House.

The first two digits of a four digit house number indicates the number of miles from the Court House. For example: house number 1225 indicates approximately twelve and one-quarter miles from the Court House.

The above system applies only to houses located on highways and/or county roads. It does not apply to houses located on streets in small towns and subdivisions. These can be easily located on arrival at the town or subdivision.

Use the key to Clay County road map on page 8 in locating any county road, town or subdivision.

CAUTION: Do not use your house and road number for mailing purposes. Use only your present rural route number and box number.

INTRODUCTION

THE FOUR MAJOR DEPARTMENTS

The four major departments are arranged in the following order:

THE FIRST SECTION is an alphabetical listing of the names of Clay County residents and business concerns.

THE SECOND SECTION is arranged by road and house number under town Post Offices and Rural Routes which are arranged alphabetically.

THE THIRD SECTION is the Farm Classification section which classifies the farmer according to the type farming in which he specializes.

THE FOURTH SECTION on pink papepr is the Classified Buyers' Guide. Clay County and Vigo County business and professional firms are classified by product or service. Their advertising has aided materially in the publication of your first Rural Directory. Always use this section when in need of any product or service.

BRAZIL

Brazil, the county seat of Clay County in the Central Western part of Indiana, is noted chiefly for its large production of Brazil Block Coal and for the excellence of its heavy clay products.

A type of structural clay tile with faces 'glazed in a variety of beautiful colors, was originated in Brazil and is known to architects in every city. This beautiful structural tile has been widely used in schools, hospitals and public buildings throughout the country, and according to experts, has no equal anywhere in the world.

Clay conduit, for underground electric construction, is made in vast quantities in Brazil and is shipped all over the world. The clay plants of Brazil also make excellent glazed brick, hollow brick, building tile, fireproofing tile, silo tile, filter bed tile, paving brick and sewer pipe.

In addition to the Brazil Block Coal there are a few important deposits of what are known as Minshall Vein and Third Vein Coal, which differ from Brazil Block Coal in both structure and analysis but which are widely sold.

Many large stripping mines and some shaft mines, are operated within a radius of ten miles of Brazil and produce a large tonnage of this high grade fuel. Some of these mines have concrete drives and the most modern equipment for grading and preparing coal as well as to facilitate the loading of coal on trucks. Quite a number specialize on truck coal business.

Brazil's population is all American with a very high percentage of home owners. There is a good supply of both skilled and unskilled labor, with a record of practically no labor disturbances.

Brazil homes are situated on shady, well-paved streets. The business district, is chiefly on the National Highway (Route 40) and is clean, smoothly paved, and well lighted.

Educational and recreation facilities in Brazil are unusually good. The public school system includes a new Senior High School building, an Industrial Arts and Gymnasium building with an auditorium seating 4,000 people, and six modern grade school buildings.

A well-equipped public library is located in the downtown section.

The Y.M.C.A. building, in charge of a competent and progressive secretary, is the headquarters for many interesting and useful community activities.

A municipal stadium, 450 feet square, was completed in 1934. This is located in Forest Park and is equipped with the most modern lighting system for night use. Another modern athletic field is located adjacent to the Senior High School building.

Brazil has two theaters in the downtown district.

The Clay County Courthouse, located at National Ave., and Alabama St., has a small auditorium available for meetings of public interest. The Courthouse also shelters a museum of early settler's relics, zoological and botanical specimens of this region and many historical documents and souvenirs. This interesting museum is open to the public.

The Brazil Country Club, just beyond the southern corporation line, has a well-kept nine-hole golf course.

Brazil has three well-appointed clubhouses. A modern Masonic Temple stands at Walnut and Church Sts. The Elk's Club is located on Sherfey St., just south of National Ave. The Eagles Club is at the corner of National and Forest Aves.

Shipping and transportation facilities are excellent in Brazil. It is served by the main line of the Pennsylvania Railroad and by branch lines of the B. & O. and C. & E. I. Railroads. There are rapid truck and bus lines both east and west over the National Highway.

A progressive daily newspaper, serving a shopping area of more than 22,000 people, keeps Brazil abreast of national and world events.

The membership of the Chamber of Commerce includes the leading business and professional men and women of the community. Any detailed information about Brazil and Clay County, its resources and business, may be obtained through the offices of the Chamber, at 32 E. National Ave.

BUSIEST BOOK IN CLAY COUNTY

The Clay County Rural Directory Is The County's
No. 1 Reference Book.

It Is the Busiest Book in the County Because
It Is Helpful To Everyone.

All Business Firms
SHOULD HAVE A
CLAY COUNTY RURAL DIRECTORY
AND
WALL TYPE COUNTY ROAD MAP
IN THEIR OFFICE
AND
DELIVERY DEPARTMENT

Your rural customers will now have their house and road number when requesting deliveries or service calls. It will save you and your customers many hours of sketching maps and writing down inadequate directions before you can make the delivery or service call.

Many times it is necessary for insurance companies or adjusters to personally contact their policy holders and personnel offices to contact absent employees. A rural route address is very little help in making a personal call but with your RURAL DIRECTORY it can be accomplished quickly and easily. You will save many dollars in time and car or truck mileage when you do it the RURAL DIRECTORY way.

ORDER YOUR DIRECTORY AND ROAD MAP NOW!
